

Summary

I'm Proficient in HTML, CSS, Java, JavaScript, and React. I want to utilize my abilities as well as enthusiasm about building interactive user experiences so that I can aid a vibrant web development team. I have answered more than 300 DSA/Coding questions. With certificates from Geekster and NPTEL, I am dedicated to consistent learning and staying professional.

Internship

Yoof Magazine | Web developer

- Proactively maintained and updated the magazine website and articles.
- Engaged in a dynamic 3-month internship, showcasing expertise in **HTML**, **CSS**, and **TailWind CSS**.

Projects

Jack & Jones Clone / *HTML, CSS, TailwindCSS & JavaScript*

Dec, 2023

- Spearheaded the creation of T-Shirts and Premium pages, shaping an engaging user interface.
- Applied a tech stack including **HTML**, **CSS**, and **JavaScript** for dynamic user experience.

Expense Tracker with Ai | *HTML, CSS, Tailwind CSS & JavaScript*

March, 2024

- I've implemented the functional aspects of the project. This involves writing code, connecting components, and ensuring that the application works as intended.
- Employed **HTML**, **CSS**, **Tailwind CSS**, and **JavaScript** to create functional and visually appealing web components.
- Successfully integrated the **Gemini API**, utilizing personal access tokens for authentication, to give investment suggestions.

Eat Fast | *HTML, CSS, Tailwind CSS & ReactJs*

May, 2024

- Implemented a search functionality by which **Axios** made it possible to process requests to a remote API that would then return important information about foods as given by the person performing the search.
- React hooks such as **useState** and **useEffect** were employed to handle the state of search operations' lifecycle, dealing with error handling in addition to displaying results in between loading states.
- Incorporated **React Router** for managing active paths in order to use **useParams** hook for extracting query parameters and showing search results.

Skills

- Computer Language** : Java, JavaScript
- Frontend** : HTML, CSS, Tailwind CSS, & ReactJs
- Tools & Technologies** : GIT, VS code

Certifications

Geekster | Geekster Full Stack Web Development

- Proficient in **Java**, **HTML**, **CSS**, **Tailwind**,and **JavaScript**.
- Completing Geekster Full Stack Web Development program.
- Successfully solved **300+ DSA/Coding questions** on the Geekster platform.

NPTEL | Programming in Java

- Completed the course with 58% and Gained foundational knowledge in Object-Oriented Programming, Data Structures, Multithreading, and Exception Handling.

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2024	B. Tech	UEM, Jaipur	62%
2020	12th	CBSE	65%
2018	10th	CBSE	80%
